PROFESSIONAL SUMMARY

Analytical B.Tech Computer Science & Engineering (AI & ML) student with practical expertise in Python, SQL, Data Analytics, and Machine Learning. Demonstrated track record of building modular AI systems, automating SQL-level workflows, and designing scalable data solutions. Passionate about leveraging data-driven insights and AI algorithms to solve real-world problems. Seeking opportunities to contribute and grow as an AI & Data Engineer.

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Data & Machine Learning: SQL, MySQL, Pandas, NumPy, Data Cleaning & Preprocessing, Machine Learning Algorithms, Data Visualization, Data Analytics

Core Computer Science: Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Object Oriented Programming (OOP), REST APIs

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, OS Automation

TECHNICAL PROJECTS

Jarvis – AI-Powered Voice Assistant & Task Automator

Python, Speech Recognition, OS Automation, REST APIs

- Architected a modular AI voice assistant using Python to execute OS automation tasks, reducing manual operations and improving workflow efficiency.
- Integrated speech-to-text and text-to-speech libraries with external REST APIs, delivering real-time execution responses with high processing accuracy.
- Designed an extensible component architecture allowing seamless addition of custom voice commands and third-party API integrations.

Personal Expense Tracker & Data Analytics Tool

Python, SQL, MySQL, Data Analytics

- Engineered a full-stack financial tracking system utilizing MySQL for persistent data storage and Python for transactional business logic.
- Developed advanced analytical features and optimized SQL queries (CRUD operations) to transform raw transactions into actionable insights.
- Built rapid validation protocols and exception handling, ensuring 100% computational accuracy and robust data reporting.

EDUCATION

Ajay Binay Institute of Technology (ABIT) – Cuttack, Odisha

2023 – 2027

Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI & ML)

- Academic Standing:** SGPA: 8.0 / 10.0
- Higher Secondary School (Class 12th):** 70% | **Secondary School (Class 10th):** 75%

RELEVANT COURSEWORK

Data Structures & Algorithms (DSA) | Database Management Systems (DBMS) & SQL | Machine Learning & Artificial Intelligence | Object-Oriented Programming (OOP) in Python

EXTRACURRICULAR & INTERESTS

- Competitive Gaming:** Engaged in strategic multiplayer gaming, honing rapid decision-making, spatial awareness, and team communication skills.
- Languages:** English (Professional), Hindi (Fluent), Odia (Native)
